OLYMPIC GAMES - 1948.

Swimming, Diving and Water Polo.

Provisional Operational Programmes.

Note:

These "timings" were compiled by the Preparatory Committee on June 27th for the primary purpose of deciding the allocation of Water Polo matches between Wembley and Finchley.

The Committee were deficient of information as to:-

(a) The number of competitors entered in each event, and

(b) The conditions relating to the number of competitors qualifying for Semi-Finals and Finals.

Regarding (a) an average of two competitors per country has been assumed.

For (b) provision has been made for the first two in each Heat (or Semi-Final) plus the two fastest losers.

The "timings" have enabled the Water Polo allocation to be decided but must necessarily be regarded as provisional so far as they refer to Semi-Finals and the duration of the Sessions at Wembley.

In certain Sessions a longer period has been allowed for an equivalent (or near equivalent) event. This has been done deliberately - to allow more time, where possible, for arriving at results.

Revised in light of Final Entries + withdrawal of Detroit demonstration and time allowance for Victory Ceremonials.
